Busby seeks Precinct 4 office

Robert L. Busby Jr. has authorized the Anvil Herald to announce his candidacy for the office of County Commissioner, Precinct 4, Medina County, subject to the Democratic Primaries.

Busby, a resident of Medina County for almost 50 years, is presently in the farming and ranching business. Farming and ranching have been his primary means of livelihood throughout most of his life, but he has had other interests at varied times.

He has been on the Board of Directors of the Bexar-Medina-Atascosa Water Improvement District No. 1 for over 20 years and is presently president of that body.

This position has been covered with the overall management of the water improvement project, which includes over 33,000 acres of irrigated land. Included in this operation is the assessment and collection of taxes, purchasing heavy equipment and managing its use in construction projects, and working with several bond issues, all of which have been successfully retired.

A member of the First United

Methodist Church of Devine, Busby has been a member of its official board for some 35 years and is presently serving as the chairman of the Board of Trustees.

Being a taxpayer and property owner, Busby recognizes the importance of fair and equitable treatment to all citizens in this precinct. If elected, he pledges his time, effort and experience in conducting the affairs of the office on a sound and businesslike basis.

CLOSING OUT... a 16-year career as postmistress in Dunlay, Mrs. Lela Krenmueller was presented an Award Certificate. On hand for the presentation are [l-r] Clyde Bader, John Muennink, Mrs. Krenmueller, T. E. Cox, and Floyd Tondre. Mrs. Krenmueller retired effective January 1.

Dunlay Postmistress retires

Mrs. Joe (Lela) Krenmueller, postmistress in Dunlay since 1958, has retired from the Postal system, effective December 31, 1973.

Monday morning she was presented a certificate of award, commemorating her years of service to the postal system.

On hand for the presentation were T. E. Cox, San Antonio postmaster and sectional center manager; Clyde Bader, Assistant sectional center for customer services; Floyd Tondre, Castroville, postmaster, John H. Muennink, Hondo postmaster; and friends and neighbors of Mrs. Krenmueller.

Continuation of the Dunlay post office is still under study by the postal system. Possible changes in service to Dunlay postal customers include the establishment of a contract system, whereby sale of stamps and money orders, and parcel service, might be handled in a place of business or in a home. Other possibilities include continuing the post office as it is with a new postmaster, or shutting down service in Dunlay, with a rural route carrier handling all stamp, money order, or parcel transaction.

Studies now in progress will weigh revenue with customer service needs. Presently, the office is kept open on a part-time basis by Hondo post office personnel.

The existence of a post office in Dunlay goes back to its establishment as a town along the Southern Pacific railroad, in 1898.

In those days the San Antonio-El Paso road followed the path of the railroad, and Dunlay was centered around the depot.

The first depot agent, a woman named Mrs. Donaley, was also the postmistress, and mail was handled in the depot. Thus, ironically it may happen that the first and final postmasters in Dunlay were postmistresses.

Mrs. Krenmueller and her

husband estimated that the second postmaster in Dunlay, Joe Steinle, held that post from 1904 through 1958.

The office was variously located in the depot (as Steinle was also a depot agent), in a home, where it was run by a Mrs. Cockrell; and in its present building. It possibly may have been located for a time in

Of these, 164 animals are from 4-H entries, and 184 will be FFA projects.

Fifty-six calves will be shown in the two-day event, along with 115 lambs, 83 hogs, 33 fryers, 31 capons, and seven pens of commercial calves.

Judges for the 1974 show include calf judge Tom Woodward, area livestock specialist from San Angelo; lamb judge will be John Kerchville, Vo-Ag teacher from Boerne; swine judge will be Gerald Champayne from Southwest Texas State University, San Marcos.

Heading the sifting committees will be Tom Everett for calves and lambs; George McAllister for swine, and L. E. Downs for poultry.

Special school board meeting set Tuesday

Hair will probably be the main topic of conversation at a special called meeting of the Hondo School Board Tuesday, January 29, although other subjects are likely to be discussed.

The meeting is being called by Board President Elmer Joe Leinweber at the request of some parents in the district. It will be held at 7:30 p.m. in the Audio Visual room at the high school.

Prompting the special meeting were conversations held by some parents with Supt. Kenneth Flory and a letter addressed to him and the board. It read:

"Dear Mr. Flory and Board Members:

"We, as concerned parents and citizens demand a special school

board meeting on Tuesday, January 22, 1974. Our main concern will be the treatment of Chicano students, the regulations on hair length, and other important issues. Mr. John Alaniz will be representing us. Sincerely, Irma L. Torrez."

Flory said the reason the meeting is being held on January 29 was because "the letter was received by my office on Friday, January 18 at near closing time, and we felt this did not give us ample time to call a meeting by the 22nd."

The superintendent said the school is actually giving a "Lenient" interpretation to the 1970 addition to the High School dress code which reads:

"Boys will be permitted to wear the polo or golf-type shirt outside

the pants at the waistline if the shirt is designed to be worn in this way. Boys hair will be expected to be well groomed. It will not extend below the eyebrows in front and will not cover the ears nor extend below the collar.

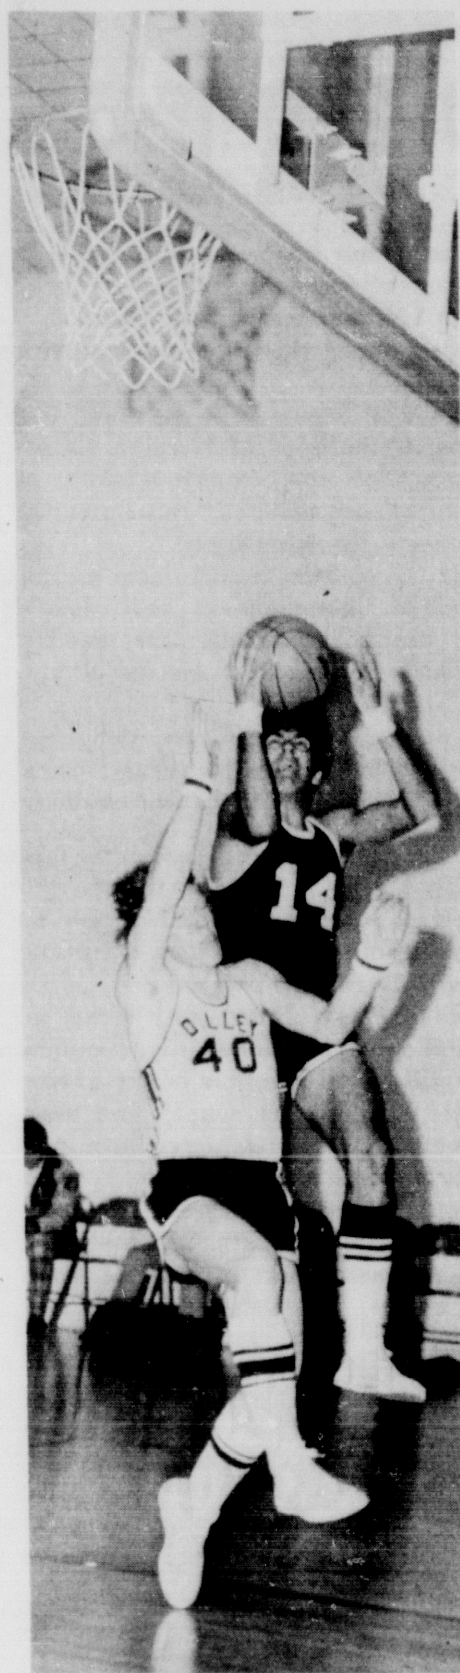

"Girls will be permitted to wear matched pantsuits with the top to be of hip length. Blue jeans or slacks will not be permitted for girls. Unusually short skirts will also not be permitted."

The code continues: "While attending classes or representing the school on official trips, girls are expected to dress like girls and boys like boys."

Flory also said that the written letter is in keeping with the provision of the portion of the

school guide which is titled: "Handling of Grievances." This reads:

"Parents or patrons having a complaint should first seek remedy from the proper school officials. If no satisfactory understanding is reached, then an appeal may be made to the school board in writing. If such complaint directly involves school personnel, such person shall be furnished a copy of the complaint or appeal and such person shall have the privilege of filing a written reply to the board. Both parties may appear before the board in person, but the discussion will be limited to the points contained in the written complaint or reply."

Letters to the editor

Dear Mr. Lawrence;

I just have a question to ask concerning the proposed bond for the golf course and the library:

Just how many people really would benefit from this? This is a year of energy crises and putting a \$50,000 sprinkler in would surely consume more electricity and water. This will benefit the town to a certain degree but why should we citizens who have never put foot on the course pay for someone else's pleasure. . . Let those who play golf finance this.

As to the library, we started with a volunteer labor and gifts of books, yet when we are careless about returning a book on time, we receive a notice sounding as though we never had any intention of returning it and we are depriving someone of the privilege of reading it.

I personally spent three weeks typing down there and donated about a hundred books, yet I was three days late and received such a notice.

Respectfully,
(Name withheld on request)

CONSTITUTIONAL CONVENTION

By John Poerner
Representative
45th District

Work became the focal point for all Texas Constitutional Convention delegates Monday, January 14, when committees began studying and taking testimony on the proposed Constitution as submitted by the Constitutional Revision Commission.

As a member of the Education Committee, I believe the initial meetings re-emphasized what I have

said and felt all along: "The work of this committee is perhaps more vital than any other group working on the Constitution. For the decisions we make here will surely affect the lives of Texans for generations to come."

This certainly is not to say that all other committees are not vitally important to the people of our state. They are. But the educational decisions will most certainly have a profound bearing on the direction our state will progress during the coming decades.

Perhaps one can say that our entire time will be spent on semantics, for the language of Education Article VII can make a world of difference in the educational systems the people of Texas will be afforded for many years. A single word can make the difference in a future court decision of educational equality, educational excellence, or educational decline.

I certainly want the best possible educational system that we can have. A system that will offer all students every educational opportunity they need to prepare for a career in adult life.

But at the same time, we must be diligent in our approach to such a system and not allow our desire for more educational opportunities for all to bankrupt our taxpayers.

Therefore, keeping in mind the vital bearing education will have on future generations, we must work to write an article that will provide those educational opportunities, but at the same time we and future Texans can be able to live with it financially.

In accomplishing this, I would urge everyone to look closely at provisions of all the sections of Article VII, and especially Sections 1, 2, and 3. Study them critically to see if they will meet the goals you feel we must set for our public schools. If they don't, what can we do to change them?

I am disturbed that the Commission considered some articles in the

present Constitution unimportant enough to transfer to their proposed document. This is especially true with the County Permanent School Funds.

There are more than 200 counties in Texas that have such funds, and I feel they cannot, and must not, be taken from these counties. That is a heritage the state has no right to take away.

Many questions are being asked by Education Committee members and I feel these, along with the much needed public testimony we will receive, will assure us that every possible idea on education will get a complete airing before the final article is approved.

POLITICAL ACTIVITY

... jumped to a new high this week as precinct and county offices drew much attention. A separate story details the activity.

So far, however, I haven't seen any action on the part of candidates for Hondo City Council, although they still have some time before having to file. Deadline on filing for county and state offices is February 4, while candidates have until March 6 to file for city offices.

Three positions will be up for grabs this year, since the terms of Councilmen G. E. [Pete] Pedroza, Hilmer Mueller and Richard D. [Bud] Gwartney will expire.

Questions asked on balloting

Several Hondoans have expressed concern over the separate ballots which will be used in the upcoming bond election February 9.

Regulations to be followed in the balloting require that separate tallies be taken of voters who are property-taxpayers in the City of Hondo, and voters who are not.

The reason for this separation, explains City Attorney Hugh Meyer, is a constitutional question concerning the election.

In previous years, municipalities which held bond elections limited voting to those residents who owned property subject to taxation. On them would rest the tax increases which accompany bond election passage.

But recently a suit was brought on behalf of non-property-taxpayers seeking that they be allowed to participate in the election.

That suit is on appeal before the United States Supreme Court at this date, and will probably not be decided before the election.

Accordingly, two elections will be held. Should both voting groups pass the propositions, they will be considered approved, and bonds will be put up for sale.

Should both voting groups defeat the propositions, of course, the issue will be dead.

But should one group pass a proposition and the other group defeat it, then the bonds can not be sold until the Supreme Court rules on which voting method is constitutional.

So, in order for Hondo to get quick action on sale of municipal bonds, both property-owners and non-property owners must pass either or both propositions.

Letters to the editor

Dear Mr. Lawrence:

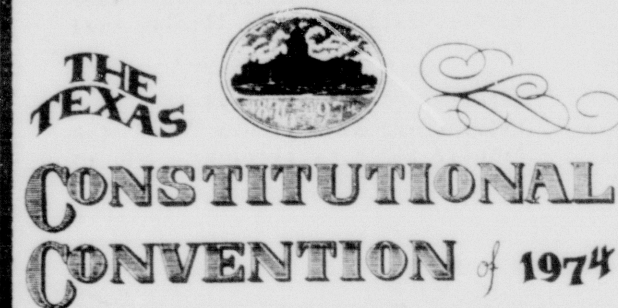

I just have a question to ask concerning the proposed bond for the golf course and the library:

Just how many people really would benefit from this? This is a year of energy crises and putting a \$50,000 sprinkler in would surely consume more electricity and water. This will benefit the town to a certain degree but why should we citizens who have never put foot on the course pay for someone else's pleasure. Let those who play golf finance this.

As to the library, we started with a volunteer labor and gifts of books, yet when we are careless about returning a book on time, we receive a notice sounding as though we never had any intention of returning it and we are depriving someone of the privilege of reading it.

I personally spent three weeks typing down there and donated about a hundred books, yet I was three days late and received such a notice.

Respectfully,

said and felt all along: "The work of this committee is perhaps more vital than any other group working on the Constitution. For the decisions we make here will surely affect the lives of Texans for generations to come."

This certainly is not to say that all other committees are not vitally important to the people of our state. They are. But the educational decisions will most certainly have a profound bearing on the direction our state will progress during the coming decades.

Perhaps one can say that our entire time will be spent on semantics, for the language of Education Article VII can make a world of difference in the educational systems the people of Texas will be afforded for many years. Letters to the editor

Dear Sir:

Thanks to your fine
coverage of our activities,
a great many of your
readers support the work
of the American Lung
Association-Alamo Area
through annual contribu-
tions to Christmas Seals.

This year's Christmas
Seal appeal showed a
decline in contributions
over last year. Unfortun-
ately, we learned that a
cause of this decline was
dishonest postal employee
in the main San Antonio
post office. Postal inspec-
tors apprehended this
postal worker in the act of
stealing Christmas Seal
envelopes addressed to the
American Lung Associa-
tion-Alamo Area. The
individual made a confes-
sion wherein he admitted
destroying any checks and
keeping cash that he found
in the contribution envel-
opes. The apprehended
employee plead guilty in
U. S. District Court and
will be sentenced on
February 8, 1974.

If any of your readers
sent a Christmas Seal
check in October, Novem-
ber, or before December
16, 1973, that has not been
returned by their bank,
they may assume that it
was one of the destroyed
checks. If this happens to
be the case, we would
deeply appreciate their
sending a replacement
check to Christmas Seals.

Sincerely yours,
Robert T. Larkin

Letters to the editor

Dear Sir:

Thanks to your fine coverage of our activities, a great many of your readers support the work of the American Lung Association-Alamo Area through annual contributions to Christmas Seals.

This year's Christmas Seal appeal showed a decline in contributions over last year. Unfortunately, we learned that a cause of this decline was dishonest postal employee in the main San Antonio post office. Postal inspectors apprehended this postal worker in the act of stealing Christmas Seal envelopes addressed to the American Lung Association-Alamo Area. The individual made a confession wherein he admitted destroying any checks and keeping cash that he found in the contribution envelopes. The apprehended employee plead guilty in U. S. District Court and will be sentenced on February 8, 1974.

If any of your readers sent a Christmas Seal check in October, November, or before December 16, 1973, that has not been returned by their bank, they may assume that it was one of the destroyed checks. If this happens to be the case, we would deeply appreciate their sending a replacement check to Christmas Seals.

Sincerely yours,
Robert T. Larkin

Traeger says he's running

Senator John A. Traeger announced that he has filed for re-election for State Senator of the 21st Senatorial District, with the Democratic Party.

Senator Tradger, who is completing his 12th year of service in the Texas Legislature stated, "I have enjoyed the privilege of representing the great area of South Texas, and I have only one campaign promise: to continue to work very hard toward the continued growth and prosperity of all the people that comprise the 21st Senatorial District."

At the time of his announcement, Senator Traeger filed Eddie A. Klein's name with the Secretary of State, naming him as his Campaign Manager. Mr. Klein is a resident of Seguin, Texas.

Senator Traeger stated, "I plan to limit my campaigning at the present time to weekends as I am devoting full time to the revision of the Constitution, and serving on the Local Government Committee within the Constitutional Convention. I am looking forward to working for a sound, new, viable constitution for our State. On adjournment of the Convention, I plan to campaign vigorously in all seventeen counties of the 21st Senatorial District."

More about....

Dunlay Postmistress

a store run by a Mr. Carle in Dunlay.

The present home of the post office has a history of its own -- it's the former Dunlay school. The old blackboards and the iron wood-burning stove remain in the building to this day.

With the passage of time, Dunlay has been pulled apart by the re-routing of Highway 90 a mile north of its original path. There stand the only remaining businesses in Dunlay -- a cafe and an ice station. The remainder of Dunlay postal patrons are farmers and ranchers who live on their land.

Many are now served by Howard Haby, Hondo rural route carrier.

But there are still a few who come to the small bank of lock-boxes located in the anteroom of the old school-building, and do their business through the steel-barred window of the Dunlay post office.

It is they, and the postal service's survey, which will determine whether or not the Dunlay postmark becomes a relic of Medina County history.

Mr. and Mrs. Fred Tom McMinn Jr.

Annette Aelvoet weds McMinn, Jr.

White spider mums, flanked by candelabra entwined with greenery, formed decorations for the candlelight wedding of Miss Annette Marie Aelvoet and Fred Tom McMinn Jr. on December 29, 1973.

Rev. Robert Silverman officiated for the vows, held in St. John's Catholic Church in Hondo.

Miss Carol Stevens of San Antonio, organist, accompanied the St. John's Youth Choir in selections of "The Wedding Song" and "Let It Be Me."

Parents of the couple are Mr. and Mrs. Fred T. McMinn Sr. of Odessa, and Mr. and Mrs. Rene T. Aelvoet of Hondo.

Presented in marriage by her father, the bride wore a candlelight gown of chiffon over silk peau de soie, featuring a square neckline and bodice covered in imported reembroidered Alencon lace. The A-line skirt formed a full sweep in back, trimmed in a row of lace over a short ruffle at the skirt hem. Short sleeves of lace over full sleeves of chiffon, ended in cuffs of lace. She carried a colonial styled bouquet of red velvet roses and baby's breath.

Mrs. Dean Schneider, cousin of the bride, was matron of honor. Bridesmaids were Miss Mariette and Jeanette Aelvoet, and sisters of the bride, and Denise Dausin, cousin of the bride.

The bride's attendants were attired in full length A-line gowns of burgundy velvet, featuring bodice insets of cream-colored lace, long sleeves and cummerbunds trimmed in lace. They carried Dolly Madison bouquets of cream colored roses.

Susie Aelvoet, cousin of the bride, who served as flower girl, was dressed identically to the other attendants.

Herb Hunter of Lubbock served as best man. Groomsmen were Gary Harris, and Tom Hunter of Lubbock, and Frank Aelvoet, brother of the bride.

Ushers were James Rotramel of Lubbock, Andrew and Paul Aelvoet, brothers of the bride, and Michael DeCock, cousin of the bride.

Tommy, Patrick and David Aelvoet, brothers of the bride, served as candle lighters and acolytes.

A reception was held in the National Guard Armory.

Miss Marcy Garrison of Hondo registered the guests. Others in the houseparty were Mmes. Herb Hunter, Charles Rothe, Terry Schott, and Misses Rebecca Jordan and Amanda Weakley.

Following a wedding trip to Cloudcroft, N. M., the couple are residing at 4303 19th St. in Lubbock.

This week All she wrote

by Edna McDade

Although I can't boast of having been to London to visit the Queen, perhaps I'm being acclimatized for the experience just in case an invitation is pending. F-O-G has definitely been the order of the weather for almost three weeks now.

Carl Sandburg said "The fog comes in on little cat feet." Maybe it's preparing to "rain cats and dogs." We could do with a bit of rain.

So much for royalty, weather and poets -- all subjects beyond my control.

If you have been enjoying poor health less and less, maybe there's a hitch somewhere in your yin and yang, two opposing forces.

Traditional Chinese medicine says the body is composed of five elements: wood, fire, earth, metal and air, each of which has yin and yang.

Herb doctors offer this explanation: Yin [not to be confused with the Scotch word of the same spelling, which means ONE] is passive and dark; Yang is active and light.

Sounds to me like a mixture of the grammatical properties of verbs -- active/passive, and a choice between two grades of a well-advertised syrup used in candy making.

And about the element of wood which a body might contain. Now is seller's market time. Wood in these parts is \$40 a cord or more.

Any piggy banks destined to be put on feed for the forthcoming May 4 (?) Museum Day, might be short on penny rations. The price of copper, now headed toward \$1.50 a pound, will make it too expensive to use for the pennies which are frequently used for collection plate offerings.

Seems the U. S. Bureau of the Mint is giving thought to replacing the present penny with pennies made of aluminum. Collectors are even now beginning to hoard the coppers.

Chinese units of currency include a penny, spelled F-E-N and pronounced FUN.

Maybe we can find a way to pronounce our aluminum pennies so they can still provide a little fun.

Hondo school students have the advantage over Corpus Christi. With the heavy fogs, darkness still extends well beyond 8 o'clock many mornings.

Some schools provided their young crossing guard with headlights but, as one little fellow said, "I'm still scared."

Land of the free and the brave!

The first month of this new year has one more week to go. Perhaps the ANVIL HERALD was reluctant to turn 1973 loose because its issue of January 3 held fast to the 1973 date line. No use, folks! 1974 is here to stay another 48 weeks unless the calendar develops some sort of shortage.

Looking ahead, as always, the Chamber of Commerce has set Saturday, Dec. 7 as the date for the annual Wild Game Dinner; and Monday, Jan. 19, 1975, for the annual CC banquet.

Spreads out the festivities, gives Santa time to get all the way around, if he's lucky, and maybe time for you to finish the Christmas stocking that you started for little Jimmy the year he was born.

The coach might like to see it, too.

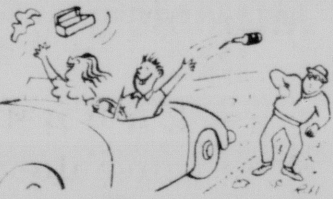

I'll be interested in the progress made by the recently organized Ag Steering Committee, representing 18 counties in TAE District 13.

Why can't Texas become the number one state in the nation in agricultural income as Governor Briscoe includes among his "goals"?

Import produce continues to make heavy inroads, much of the produce is of inferior quality, and let's hear it for Texas agriculture!

Although I'm not dedicated to the cause of bumper stickers, JERRY BERGER might have started something with her "Ask Me About My Grandchild" suggestion, if it doesn't cause traffic tie-ups.

Annette Aelvoet weds McMinn, Jr.

White spider mums, flanked by candelabra entwined with greenery, formed decorations for the candlelight wedding of Miss Annette Marie Aelvoet and Fred Tom McMinn Jr. on December 29, 1973.

Rev. Robert Silverman officiated for the vows, held in St. John's Catholic Church in Hondo.

Miss Carol Stevens of San Antonio, organist, accompanied the St. John's Youth Choir in selections of "The Wedding Song" and "Let It Be Me."

Parents of the couple are Mr. and Mrs. Fred T. McMinn Sr. of Odessa, and Mr. and Mrs. Rene T. Aelvoet of Hondo.

Presented in marriage by her father, the bride wore a candlelight gown of chiffon over silk peau de soie, featuring a square neckline and bodice covered in imported reem-broidered Alencon lace. The A-line skirt formed a full sweep in back, trimmed in a row of lace over a short ruffle at the skirt hem. Short sleeves of lace over full sleeves of chiffon, ended in cuffs of lace. She carried a colonial styled bouquet of red velvet roses and baby's breath.

Mrs. Dean Schneider, cousin of the bride, was matron of honor. Bridesmaids were Miss Mariette and Jeanette Aelvoet, sisters of the bride, and Denise Dausin, cousin of the bride.

The bride's attendants were attired in full length A-line gowns of burgundy velvet, featuring bodice insets of cream-colored lace, long sleeves and cummerbunds trimmed in lace. They carried Dolly Madison bouquets of cream colored roses.

Susie Aelvoet, cousin of the bride, who served as flower girl, was dressed identically to the other attendants.

Herb Hunter of Lubbock served as best man. Groomsmen were Gary Harris, and Tom Hunter of Lubbock, and Frank Aelvoet, brother of the bride.

Ushers were James Rotramel of Lubbock, Andrew and Paul Aelvoet, brothers of the bride, and Michael DeCock, cousin of the bride.

Tommy, Patrick and David Aelvoet, brothers of the bride, served as candle lighters and acolytes.

A reception was held in the National Guard Armory.

Miss Marcy Garrison of Hondo registered the guests. Others in the houseparty were Mmes. Herb Hunter, Charles Rothe, Terry Schott, and Misses Rebecca Jordan and Amanda Weakley.

Following a wedding trip to Cloudcroft, N. M., the couple are residing at 4303 19th St. in Lubbock.

Although I can't boast of having been to London to visit the Queen, perhaps I'm being acclimatized for the experience just in case an invitation is pending. F-O-G has definitely been the order of the weather for almost three weeks now.

Carl Sandburg said "The fog comes in on little cat feet." Maybe it's preparing to "rain cats and dogs." We could do with a bit of rain.

So much for royalty, weather and poets -- all subjects beyond my control.

If you have been enjoying poor health less and less, maybe there's a hitch somewhere in your yin and yang, two opposing forces.

Traditional Chinese medicine says the body is composed of five elements: wood, fire, earth, metal and air, each of which has yin and yang.

Herb doctors offer this explanation: Yin [not to be confused with the Scotch word of the same spelling, which means ONE] is passive and dark; Yang is active and light.

Sounds to me like a mixture of the grammatical properties of verbs -- active/passive, and a choice between two grades of a well-advertised syrup used in candy making.

And about the element of wood which a body might contain. Now is seller's market time. Wood in these parts is \$40 a cord or more.

Any piggy banks destined to be put on feed for the forthcoming May 4 [?] Museum Day, might be short on penny rations. The price of copper, now headed toward \$1.50 a pound, will make it too expensive to use for the pennies which are frequently used for collection plate offerings.

Seems the U. S. Bureau of the Mint is giving thought to replacing the present penny with pennies made of aluminum. Collectors are even now beginning to hoard the coppers.

Chinese units of currency include a penny, spelled F-E-N and pronounced FUN.

Maybe we can find a way to pronounce our aluminum pennies so they can still provide a little fun.

Hondo school students have the advantage over Corpus Christi. With the heavy fogs, darkness still extends well beyond 8 o'clock many mornings.

Some schools provided their young crossing guard with headlights but, as one little fellow said, "I'm still scared."

Land of the free and the brave!

The first month of this new year has one more week to go. Perhaps the ANVIL HERALD was reluctant to turn 1973 loose because its issue of January 3 held fast to the 1973 date line. No use, folks! 1974 is here to stay another 48 weeks unless the calendar develops some sort of shortage.

Looking ahead, as always, the Chamber of Commerce has set Saturday, Dec. 7 as the date for the annual Wild Game Dinner; and Monday, Jan. 19, 1975, for the annual CC banquet.

Spreads out the festivities, gives Santa time to get all the way around, if he's lucky, and maybe time for you to finish the Christmas stocking that you started for little Jimmy the year he was born.

The coach might like to see it, too.

I'll be interested in the progress made by the recently organized Ag Steering Committee, representing 18 counties in TAE District 13.

Why can't Texas become the number one state in the nation in agricultural income as Governor Briscoe includes among his "goals"?

Import produce continues to make heavy inroads, much of the produce is of inferior quality, and let's hear it for Texas agriculture!

Although I'm not dedicated to the cause of bumper stickers, JERRY BERGER might have started something with her "Ask Me About My Grandchild" suggestion, if it doesn't cause traffic tie-ups.

Buying children's nightclothes? Make sure they're flame retardant

Watch for bargain flame-retardant children's sleepwear when shopping January sales, one authority advises.

"With its safety bonus, it saves more than just money."

"Flame-retardant clothing helps prevent burn injuries and death," Marilyn Brown, consumer education-clothing and textiles specialist with the Texas Agricultural Extension Service, Texas A&M University System, emphasized.

"By law, all sleepwear in sizes 0 to 6X must be flame-retardant."

"However, many manufacturers voluntarily are producing flame-retardant sleepwear in sizes 7 to 14."

Although safer and more fire resistant, selections have changed somewhat, Miss Brown noted.

"Some frills and fashionable garment designs were eliminated because they couldn't be treated for flame retardance."

"In addition, fabric selection is limited."

Few consumers realize the numerous technical problems involved in producing a variety of safe, attractive flame-retardant garments, the specialist said.

Another change in children's sleepwear is cost, she continued.

"Prices have increased 30-50 percent."

"This stems from increased fabric testing, higher-priced fabric and more expensive manufacturing methods."

Turning to care and maintenance, the specialist advised consumers to follow washing directions provided on each individual garment.

"Instructions vary depending on fabric finishes and filters," she added.

Buying children's nightclothes? Make sure they're flame retardant

Watch for bargain flame-retardant children's sleepwear when shopping January sales, one authority advises.

"With its safety bonus, it saves more than just money."

"Flame-retardant clothing helps prevent burn injuries and death," Marilyn Brown, consumer education clothing and textiles specialist with the Texas Agricultural Extension Service, Texas A&M University System, emphasized.

"By law, all sleepwear in sizes 0 to 6X must be flame-retardant."

"However, many manufacturers voluntarily are producing flame-retardant sleepwear in sizes 7 to 14."

Although safer and more fire resistant, selections have changed somewhat, Miss Brown noted.

"Some frills and fashionable garment designs were eliminated because they couldn't be treated for flame retardance."

"In addition, fabric selection is limited."

Few consumers realize the numerous technical problems involved in producing a variety of safe, attractive flame-retardant garments, the specialist said.

plan Turkey

Dinner & Concert

The Hondo Band Boosters will sponsor their Second Annual Turkey Dinner and Band Concert on Sunday, February 17. Co-Chairmen for this years event are Mr. and Mrs. Wilbur Lindeburg and Mr. and Mrs. John L. Graff.

The Turkey Dinner will be served from 11:00 a.m. to 1:00 p.m. followed by the Band Concert by the five Hondo Bands at 1:30 p.m.

Tickets which include both the concert and dinner may be purchased from any Band student for \$1.75. Those who are not contacted by a Band student may call the band hall and reserve a ticket. Last year over two thousand tickets were sold to the event.

Another change in children's sleepwear is cost, she continued.

"Prices have increased 30-50 percent."

"This stems from increased fabric testing, higher-priced fabric and more expensive manufacturing methods."

Turning to care and maintenance, the specialist advised consumers to follow washing directions provided on each individual garment.

"Instructions vary depending on fabric finishes and fibers," she added.

HD Club meets

The Hondo HD Club met Tuesday, January 7, at the Hondo City Hall. There were 13 members and one guest, Mrs. Mami Nester, present.

After the business meeting, Gaye Bippert, extension agent, gave a program, using slides, on flowers, lawns and shrubs and how and where to use them in relation to your home and property.

Absolutely delicious pies were served by the hostess, Evelyn Hermann.

The next meeting will be Tuesday, February 12, at the home of Berta Wipff

who will be hostess. New members in the HD Club are Carol Wurzbach, Ann Poehler, Evelyn Grell, Judy Winkler, Judy Dittmar, and Larie Shaw.

Gallo Construction Co. sets open house

A huge Open House is planned for Saturday and Sunday, January 26 and 27, by Gallo Construction Company of Hondo. Showing will be between the hours of 10 a.m. and 6 p.m. both days.

The company, in business a year and four months, will spend two days showing off one of its finest products, a new, custom-built home at 1305 Shady Lane in prestigious Kollman Oaks, Hondo.

The home, a three-bedroom, three-bath structure, was constructed of the finest materials, combined with a high quality of

workmanship. The most modern appliances are built into the design of the home.

It is only one of four homes and an office building now in progress by Gallo Construction Company.

Last year, four new homes and three major remodeling jobs were completed by the young, but growing, company.

They have the capability to build custom homes

such as the one to be on display; or else to build according to a wide variety of pre-planned choices.

Plan to come out Saturday or Sunday, between 10 a.m. and 6 p.m., to see for yourself the beauty and structural integrity of a home constructed by Gallo Construction.

Owner of the company is Woodrow Glasscock Jr. Manager is Robert Rothe.

BEAUTIFUL Hawaii... Mr. and Mrs. Alvin Wiemers of Hondo, Texas were among more than 300 farm couples who attended a national farm business conference in Honolulu, Hawaii, last week, sponsored by World Wide Farm Forums. The conference focused on methods of no-tillage farming, and included tours of no-tillage plots planted especially for

the conference so that farmers could view no-till crops at the growing stage. In addition, the group toured selected livestock farms accompanied by University of Hawaii extension authorities, and attended special "shirt sleeve" seminars on farm management techniques, goal setting and agri-estate planning.

Coon hunt a success!

Young Farmers bagged 6 coons in their annual Coon Hunt-Barbecue, held Saturday, January 19, on the Larry Oefinger Ranch. Over 50 people gathered to eat barbecued sheep, and to see a slide presentation on hunting in the African countries of Ethiopia, Kenya, and Tanzania by William Mund.

At the regular January meeting, James Honig reported a total of \$384.75 from the sale of donated

deer hides.

Also at that meeting, Glenn Bragg presented a program on Result Demonstrations. Committees were named to help with the Medina County Stock Show and Sale, set for February 4-5.

Next month's program will be presented by Farmland Industries.

A palpation workshop will be presented in May, June, or July by Dr. Able if requested by the Young Farmers.

ASCS NEWS

whereas in 1973 only half the base was included in computation of payment.

Details on sign up and participation in the new programs will be publicized as soon as this information is received.

Producers who have not filed applications for incentive payment covering sale of wool and/or unshorn

lambs for the 1973 marketing year are reminded that January 31 is the final date for filing. This is one point brought forth in the January newsletter of the Medina County Agricultural Stabilization and Conservation Service.

Notices of farm allotments for feed grain, wheat, and cotton for 1973 will be mailed in the near future.

There are no set-aside requirements for '74, and no conserving base requirements for 1974-77. Production is not limited by the allotment.

Feed grain allotments have been reduced by approximately 30 percent. However, if payment to producers is required, total allotment will be used in computing payment.

GED testing to begin soon

Students in the Hondo Adult Basic Education Program are completing some phases of instruction and will soon be writing the standard GED exam.

Passing scores will qualify students to receive the High School Equivalency Certificate from the State Department of Education. This certificate is acceptable in lieu of the high

school diploma in meeting job requirements and is also accepted by many colleges in meeting entrance requirements.

Enrollment peaked at 116 with a student age range from 16-71. Six classes currently being offered are:

Level I -- Beginning-Grades 1-3; Level II -- Intermediate-Grades 4-6; Level III -- Advanced-Grades 7-8; Level IV -- GED-Grades 9-12.

Enrollment is continuous and there is still time to prepare for the GED examination.

An unusual amount of interest has been exhibited in the program and faculty members have stated that students are highly motivated--then came the holidays and a corresponding high attrition rate. Students are urged to "drop in" rather than "drop out." Get it all back together and finish the program.

The Medina County Commissioners paid their AACOG dues, approved a new Hondo City Dump, and donated \$5,000 for County fire departments and libraries.

To the fire departments of Hondo, Devine, and Castroville -- \$500 each;

To the fire departments of Mico, D'Hanis, La Coste, and Natalia -- \$300;

To the fire department of Yancey -- \$200.

Owls keep pace with two wins

Hondo held on to its share of the District 28-AA lead by defeating Dilley and Cotulla last week. Tomorrow night the Owls will be at Medina Valley to take on the co-leader orangemen. That game, plus a late-season contest with Pearsall, will go far to determine the district winner.

Friday night of last week, the Owls racked up a 41-18 halftime lead, then held off a furious rally in the third and fourth quarters to take the Dilley Wolves 65-52. Dilley led the third period 14-12, then warmed to a 20-12 final quarter, but the initial Owl lead proved too great.

Leading Hondo shooting for the night was Paul Richards with 19 points, with Tony Hackebell close

behind at 18. Also scoring for Hondo were Ray Garcia with 12, and Mike Groff and Bobby Rios with 8 each.

Kelly Shull led the Dilley effort with 17 points, followed by Mark Mattingly with 14, Richard Ewald with 9, Gib Wharton with 8, and Rudy Garcia with 4.

Tuesday night the Owls relied on strong second and third quarter efforts to down cotulla's Cowboys, 82-54.

After a first quarter of loose defense which ended with Hondo barely on top at 20-17, the Owls settled down and led the second

and third periods 24-5 and 20-8 respectively.

Owl scoring once again was well balanced as Ray Garcia led the night with 21 points. Paul Richards followed with 20; Bobby Rios added 14, Bob Spears had 9, Mike Groff and Tony Hackebell added 6 apiece, Wayne Westbrook put in four, and Richard Coronado scored 2 points.

Leading Cotulla was Barry Meyers, with 19 points. Second were Rene Benavidez and Joe Mac Casey, both with 12 points.

Friday night the Owls will be at Medina Valley, then Tuesday night they will be at home again to take on Carrizo Springs.

Deer hunting in 1973 not good, but not bad

Texas deer hunting in 1973 was neither good or bad -- just mediocre for the most part.

The county-by-county tallies of the deer harvest will be weeks in coming but the general impression from Parks and Wildlife Department biologists, wardens and information officers is one of a season no better or worse than last year.

There are some standouts, however; information officer Rodger McKown of El Paso reported that the Trans-Pecos had an excellent season.

"Deer were in good shape," said McKown, "and Brewster County yielded two huge mule deer, one field-dressed at 242 pounds and had a 32-inch spread, the other field-dressed at 205 pounds."

Up in the Panhandle, biologist Dick DeArment recorded the harvest of 453 mule deer, up from 281 last year. He also noted a slight increase in the kill of white-tailed deer but a decrease in the number of turkey harvest.

Things started out slowly down in the big buck country of South Texas but according to information officer L. D. Nuckles of Rockport, the first cold weather put the bucks on the move and the rutting season started.

In the Rio Grande valley, the estimated harvest decreased by some 20 percent, according to information officer Ed Dutch of Edinburg.

A paradox in this overall decrease is that some ranches in the Valley reported a 100 to 110 percent increase in the kill. Dutch said that a check

of icehouses showed the deer to be in excellent condition with good racks.

"The only thing which caused concern among hunters," said Dutch, "was the widespread occurrence of 'nose bots'." Nose bots are caused by flies which lay their eggs in a deer's nose. They in no way affect the edibility of venison.

ROOK TOURNAMENT FEBRUARY 3

Teams are already beginning to register for the D'Hanis Rook Tournament, set for February 3 and 10.

The D'Hanis Lions Club-sponsored event, since its beginning in 1972 has grown larger each year. This year's entries are expected to top the 60-couple mark set a year ago. The tournament will be held in the D'Hanis parish Hall, adjacent to Holy Cross Church.

Registration is continuing at three locations -- Medina Savings Association in Hondo, and the Country Mart and Gallo Lumber Company in D'Hanis.

Cost of entry is the same as last year -- \$5 per couple through Saturday, February 2. Entrants who wish to register at the door Sunday must pay \$6 per couple.

The only limitation to entrants is that they be over high school age. No high school students will be allowed to play in the two-session tournament.

Each session of the tournament will be held between 2 and 6 p.m., and will consist of five games of Rook.

Players will be requested to be present at 1:30 p.m. the day of the

D'Hanis downs Knippa, La Pryor

The D'Hanis Cowboys kept themselves in the race for the district championship by downing Knippa's Rock Crushers Friday night and coming back to defeat La Pryor Tuesday evening.

KNIPPA
The Cowboys took a 10-point halftime lead over Knippa, 23-13, but after an even third period the Crushers launched a late rally to pull within a point of the Cowboys. The game ended with D'Hanis barely on top, 40-39.

Cowboy scoring was evenly distributed with Doug Kempf dropping in 11 points, Bobby Joe Rothe 10, and Richard Rothe 9. Also for D'Hanis Albert Rodriguez scored 7 points and Eric Rothe 3.

Leading scorers for Knippa were Balzen with 15 points and Muecke with 11.

LA PRYOR
Tuesday evening it was the Cowboys who came from behind to win. Down 24-23 at the half, D'Hanis matched La Pryor 10-10 in the third quarter before dominating the final period 18-7 to take the win.

Final score in that ball game was 51-41 D'Hanis. Bobby Joe Rothe led the Cowboys with 16 points, followed by Richard Rothe

with 14. Albert Rodriguez added 10, Charles Hood 6, Doug Kempf 4, and Eric Rothe 2.

Tommy Mann led the La Pryor players with his 14 point total. He was followed by Kyle Walker with 12.

GIRLS
The D'Hanis Cowgirls had their good and bad moments again this week.

Friday night they won handily over Knippa 47-34. Outscoring the Knippa girls in every quarter, D'Hanis went to 29-21 halftime lead, then held on to win.

Leading all scorers was Terry Carle with 29 points. Other D'Hanis scoring came from Peggy Rothe with 10 points, Jenny Kile with 6, and Becky Santeleben with 2. For Knippa, S. Nevels scored 16 points, and R. Alvarado added 12.

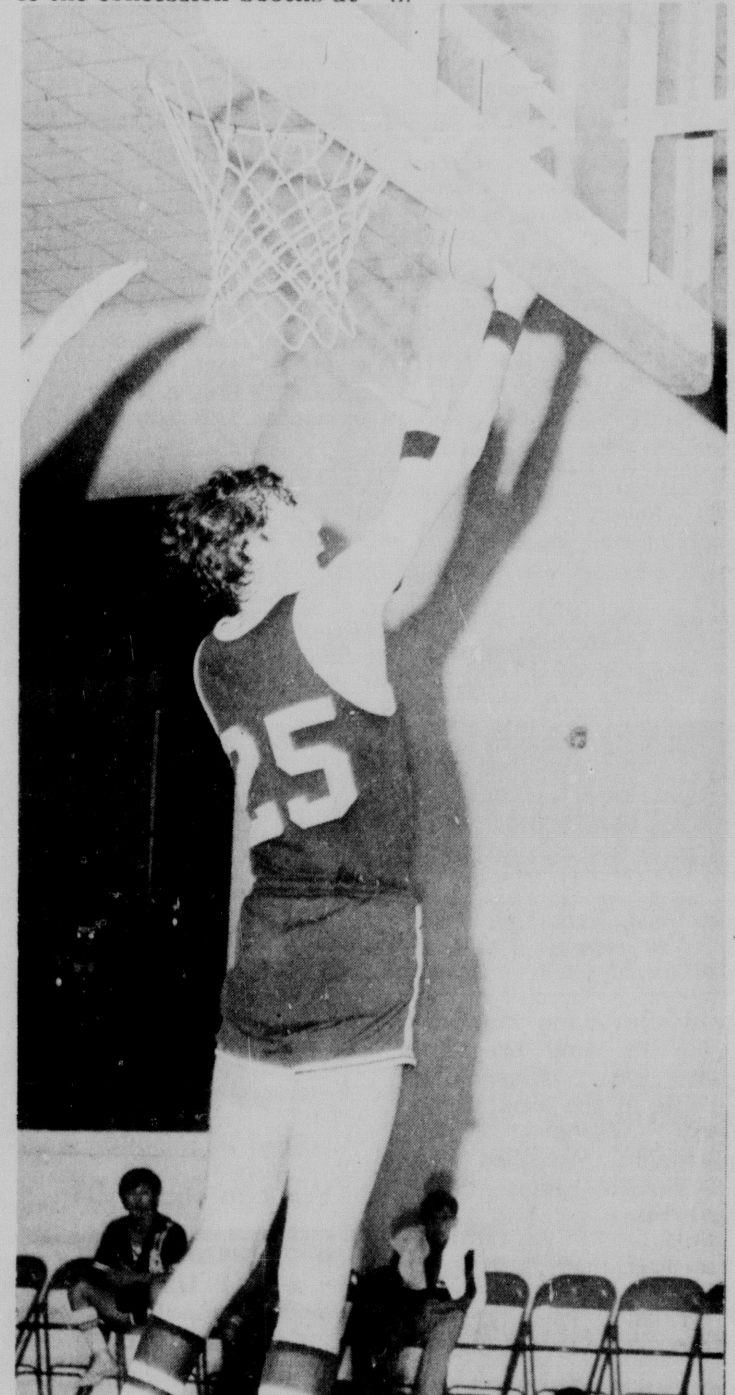

Tuesday night La Pryor defeated the D'Hanis girls 58-29.

D'Hanis will be idle Friday night, but Comstock will be at D'Hanis gym Tuesday January 29 in a district game which may decide the title. Then, after another open date, Knippa will be at D'Hanis for the season finale, on Thursday, February 7.

the tournament.

Food, soft drinks, and ice will be available to entrants and spectators throughout both afternoons.

It's always a fun event for everyone and cash prizes are there for the winning, so plan to grab a card-playing partner and come to D'Hanis February 3.

B-Team manhandles Dilley, Cotulla JV's

The Hondo B-team had a good week of it, defeating Dilley Friday night by a handy 62-48 margin. Tuesday night they outdid that one by downing Cotulla's Jr. Varsity 72-22.

The Dilley game was no sure thing until the fourth quarter -- Hondo led by a slim 40-38 after three quarters.

But in the final period the B's ran away from Dilley to finish 62-48.

Leading Hondo was Alex Mendoza with 18 points. Gabriel Lopez had 13 points; Gary Haass had 11, and David Knowles scored 10.

For Dilley, Ubana scored 19 points, and Castillo added 12.

COTULLA
Hondo took advantage of Cotulla's cold shooting in the second and third quarters Tuesday night to win 72-22.

After a 14-12 first quarter, Hondo's B's held Cotulla to two points each in the second and third quarters, and six in the fourth. Scoring was 43-14 at the half, and 60-16 after three periods.

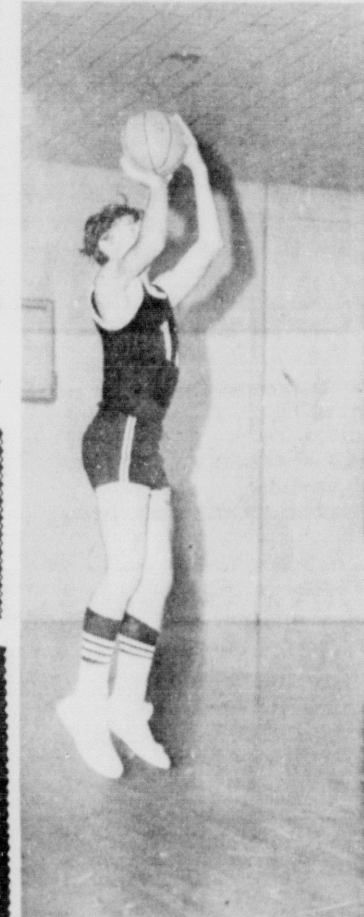

Alex Mendoza again led Hondo with 18 points, followed by Randall Hare with 14, David Knowles with 10, and Robert Harrison with 9.

For Cotulla, Westly and Terry each tabbed 6 points.

Neither Cotulla nor

Dilley fielded a Freshman basketball team, so the Hondo Frosh saw no action in the past week.

They will play Friday night along with the B-Team and Varsity at Medina Valley, and again Tuesday night against Carrizo Springs.

Resolve now to quit smoking in '74

This New Year, plenty of people made a resolution to quit smoking. For those they love.

People are still trying to quit smoking for their own sake. But another dimension has crept in. More and more people are kicking the habit because others care so much. A steadily increasing stream of requests for anti smoking information comes in the mail to lung associations. The information is not for the people who write in—but for those close to them. For their friends, grandfathers, neighbors, wives, brothers, work-mates, uncles and daughters.

The message to smokers has registered: we who love you want you alive and well. That kind of concern is hard to resist.

The concern works both ways, too. Smokers are beginning to worry about the effects of their smoking on others. For

example, at recent smoking withdrawal clinics conducted in a large insurance company by a lung association in Hartford, Connecticut, more than half the people who attended were afraid their smoking might be harming those around them. That was one of the reasons

they wanted to quit.

Smokers have started to realize that their smoking is unpleasant and even harmful for those they live with, share offices with, eat near at lunch counters, or sit next to on buses. And smokers are beginning to care how nonsmokers react. Because non-

smokers are telling them straight out.

Mutual concern is strong stuff. And social attitudes toward smoking are changing fast. To find out how you can help people you love to quit smoking or what effects your smoking might have

on others, contact the American Lung Association-Alamo Area, 318 W. Houston Street, San Antonio, Texas 78205. And as you live and breathe, give more to Christmas Seals. They help fight cigarette smoking and the lung disease it causes.

VA Questions & Answers

[Editor's Note: Veterans and their families are asking thousands of questions concerning the benefits their Government provides for them through the Veterans Administration. Below are some representative queries. Additional information may be obtained at any VA office.]

QUESTION: I understand the Veterans Administration is paying a record

dividend this year on "V"-prefixed National Service Life Insurance and "K"-prefixed U. S. Government Life Insurance policies. When may I expect the dividend on my NSLI policy?

ANSWER: Your dividend is payable on the anniversary date of your NSLI policy, and no application is necessary. If you have elected to buy paid up insurance with

your dividends, you will get a statement of your account rather than a check. Dividends amounting to \$303.8 million are payable throughout 1974 on anniversary dates of policies carried by 3.9 million eligible veterans.

QUESTION: I'm a World War II veteran who never used his GI home loan entitlement. I hear the Veterans Administration will still guarantee loans for such veterans. Is that true?

ANSWER: Yes. In 1970, Congress removed expiration dates on all unused, VA expired loan

entitlement. Henceforth, veterans retain entitlement until used. Apply to nearest VA office if you want to use this benefit.

QUESTION: What's this I hear about husbands of female veterans being eligible for the same Veterans Administration benefits as wives and widows of male veterans?

ANSWER: You heard right. Under PL 92-540 (Oct. '72), the term "wife", for purposes of benefits, includes husbands of female veterans and "widow" includes widowers of female veterans.
